

PRO N-A-C

Relieves chronic bronchitis symptoms

- Bronchitis
- Immune support
- Liver detoxification
- Antioxidant

 Vegan  Non-GMO  Gluten Free

PRODUCT DESCRIPTION

N-Acetyl-L-Cysteine, or N-A-C, is an acetylated form of the amino acid cysteine, an important precursor to glutathione (GSH). Glutathione is the most important antioxidant produced in the body, and helps chelate toxins and heavy metals. N-A-C has been used for over 30 years for respiratory health providing relief from chronic respiratory conditions such as post-nasal drip, sinusitis, chronic bronchitis, cystic fibrosis, and COPD. N-A-C also promotes cardiovascular health due to its ability to inhibit lipoprotein-a.

AOR ADVANTAGE

As the precursor for the important antioxidant glutathione, AOR's Pro N-A-C provides a wide range of health benefits in an effective dosage.

NPN: 80005832

120 capsules

Serving Size:

One capsule

Medicinal Ingredients:

N-Acetyl-L-Cysteine

AOR 34285

500 mg

Non-medicinal Ingredients:

Sodium stearyl fumarate, hypromellose, and microcrystalline cellulose.
